

WE HAVE

A POLLINATOR

FRIENDLY GARDEN

We are connecting with nature and providing vital food and shelter for all the different creatures that pollinate our garden.

OVERTON POLLINATOR PLEDGE

Sustainable Overton has signed up to the Parish Pollinator Pledge run by Hampshire Countryside Service. It encourages parishes and organisations to provide the ever-declining population of pollinators with corridors and oases of food and shelter in the form of native plants and trees, log piles, bug hotels, leaf matter and water sources.

We want to extend this into your garden right here in Overton! Let us and your neighbours know you are taking part by displaying the front page of this flyer in your window.

Use the QR code to learn more or email us to let us know what you are doing to help the pollinators in your garden. We'd love to see pictures.
